Experience

Dwipbartika Association | Managing Editor

January 2021 - January 2022

• This experience reflects my ability to strategically lead editorial efforts, enhance content quality, and align publications with organizational objectives. I have played a pivotal role in overseeing and enhancing the editorial functions, content strategy, and publication processes.

Codeforces, LeetCode | Problem Solver

January 2020 - Present

• Through my regular participation in contests, I have honed my problem solving skills and expanded my knowledge of algorithm and data structures. These contests have provided me with a platform to test my coding abilities and challenge myself with new and complex problems.

Projects

My Portfolio Website | (link)

HTML.CSS

In my recent project, I developed a portfolio website to showcase my skills and accomplishments. This is my personal website contains all my information, skill and project work.
